

B. W. DALTON
ATTORNEY AT LAW
PRICE, UTAH

April 17, 1928.

Mr. George H. Bacon
State Engineer
Salt Lake City, Utah.

Dear Mr. Bacon:

InRe: Muddy Creek,
in Emery County,
Utah.

The Emery Canal and Reservoir Company deem it very urgent that a water commissioner of Muddy Creek be appointed and suggest the name of Wallace Case. Mr. Case was the commissioner last year and rendered good services and was fair to all people concerned. The Emery Canal and Reservoir Company believe that he is the proper person to be appointed this year. If there are no objections on file, they would appreciate an appointment being made immediately.

By reason of the cold spring, there has been no high water but the water has been coming down in not sufficient amount to amply supply the holders of rights and a division of the water should be begun right away. In the appointment of a commissioner great trouble will be averted.

May I hear from you by return mail?

Yours truly,

B. W. Dalton
